

Please reject the National Association of Broadcaster's bid (NAB's petition 04-16) to stop Satellite radio providers from providing local content traffic and weather.

Satellite Radio is to radio what cable TV was to television so many years ago- a real opportunity for choice in content. I am also a satelliete television subscriber and remember when local broadcasters delayed its progress.

This is a clear bid to stifle competition and free enterprise and is frankly unjustified and UNAMERICAN.

Sincerely,

Jeff Oliva
